

Generating nitrogen on site can lead to considerable savings over other sources of nitrogen.

NiGen International has your solution with our specially designed on-site Membrane Nitrogen Units. (MNU's). NiGen International provides the most reliable on-site nitrogen systems available today, using the most efficient membrane modules, coupled with a state-of-the-art control system.

NiGen International specializes in applications utilizing air compression and on-site membrane nitrogen generators along with booster compressors and air dryers for the pipeline industry. We have successfully provided our services for literally thousands of pipeline miles using the latest nitrogen membrane technology.

SERVICES OFFERED

- Chemical and Mechanical Cleaning
- Dewatering and Drying
- Fabrication Services
- Industrial Applications
- Leak Detection
- LNG Facility Work
- Mining Operations
- Nitrogen Injection Programs
- Nitrogen Services
- Offshore and Marine Applications
- Pigging & Pig Tracking
- Pipeline Commissioning & Decommissioning
- Pneumatic Testing
- Project Management
- Purging & Inerting
- Refinery and Plant Turnarounds
- Rental Equipment (N₂ Membrane Systems, Air Compressors, Air Dryers)
- Reservoir Pressure Maintenance

SALES & RENTAL PRODUCTS

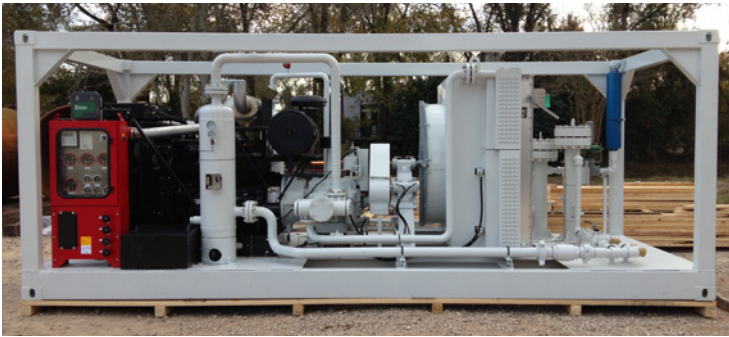

- Air Compressors
- Air Dryers
- Booster Compressors
- Fabricated Products (Skids, Vessels & Piping)
- Heater Skids
- High Pressure Filter Skid
- Membrane Nitrogen Systems (Offshore, Land, Stationary)
- Oil Water Separators
- Pig Launchers and Receivers

Through adhering to Safety Management Programs, we strive to protect our employees, our customers and the public. We do our utmost to abide by all applicable governmental laws and regulations, as well as internationally accepted practices for our industry.
