

1500 MNU Portable On-Site Nitrogen Generator

Designed for Portability and Reliability

- 99.9 to 92% Nitrogen Purity
- Automated PLC Control System
- HMI Touch Screen
- Electronic and Mechanical Monitoring System
- High Efficiency Membrane Technology
- Non Depleting Oxygen Sensor
- Containerized, DNV w/certified sling
- Protective Shutdown Controls
- Dew Points $\leq -70^{\circ}$ F
- Zero Loss Condensate Auto Drains
- Low Voltage 24VDC Power Requirement (eliminates the need for 3 phase external generator)

Specifications, Weights and Dimensions

Delivery @ Rated Purity – 1,500 SCFM @ 95% Nitrogen purity
Weight – 12,500 LBS
Length x Width x Height – 120 IN x 96 IN x 102 IN
