About Us

Serving the industry since 1999, NiGen International specializes in the design and manufacture of on-site nitrogen systems. From portable containerized systems to skid-mounted stationary systems, standard or custom engineered, we have the system to meet your specific needs or requirements. At NiGen, we provide reliable on-site nitrogen systems, utilizing the most efficient and highest performance membranes available on the market today.

Our goal and vision is to continue expanding our services to the energy industry and to reach more domestic and international markets through quality relationships with our customers, vendors, and representatives.

Services

NiGen International offers a wide range of services to the energy industry including, but not limited to, the following:

- Air Services
- Caliper Services
- Chemical Cleaning
- Dewatering
- Drying Services (Air & Nitrogen)
- Equipment Rentals (Compressors, Generators, Boosters)
- Leak Testing
- Nitrogen Services
- Pig Sales
- Pipeline Cleaning
- Pipeline Inspection
- Pneumatic Testing
- Purging
- Fabrication Services
- ASME Code Shop with "U" and "R" Stamps
- Pig Launchers & Receivers

Equipment Sales & Rentals

As a manufacturer, NiGen International can design a system to match an existing application or provide the most efficient solution with any of our equipment. Our nitrogen units feature integrated manifolds and silencers, and are the highest efficiency systems currently available on the market. Equipment available for sale or rental include:

- Portable Membrane Nitrogen Units
- Stationary On-site Nitrogen Units
- High Pressure Boosters
- High Pressure Air Compressors
- Air Dryers
- Air Coolers
- Spare Parts
